

# Brookfield Veterinary

Redmond WA

## Location

Redmond, Washington

## Project Description

Brookfield Veterinary Hospital was located in a 2,000 sf space in a small shopping mall prior to The City of Redmond acquiring the site. As a result Brookfield was able to change from a tenant to owner and expand to a 5,700 sf state of the art veterinary hospital. SEA CON found the site for the owner and managed the design/permitting and construction of this award winning project. SEA CON handled the relocation process for the owner which provided a significant down payment for the new facility.

## Actual Work Performed

Relocation Consultant/Construction Manager  
General Contractor
